

Integrity always comes first

Finances are the pulse of enterprises, yet their integrity is exposed to human errors, non-compliance, and fraud. Datricks eliminates these vulnerabilities, transforming your business from a state of exposure into a beacon of Financial Integrity.

Exposures are on the rise

Today, employees are facing more pressure than ever to meet financial targets in an environment of surging complexity, creating more exposures for your business.

More human errors

Honest mistakes happen all the time. And more data means more of them. For example, creating multiple records for the same entity, which inevitably lead to costly duplicate payments.

More non-compliance

Some employees knowingly or unknowingly bypass protocols to work faster. And with workloads on rise, it's only getting worse, costing firms nearly 3X as much as being in compliance.

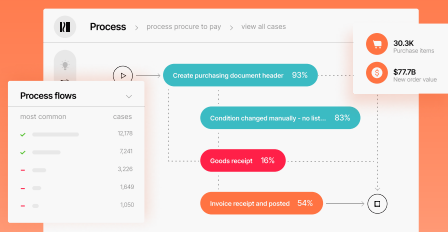

More fraud

Whether committed by employees or state-sponsored cyber criminals, fraud is growing fast. It's already responsible for the staggering loss of 5% of annual revenue of businesses worldwide.

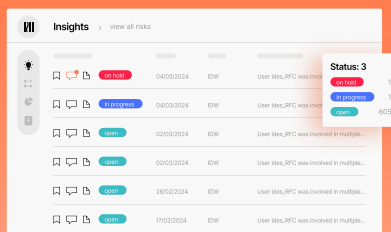

The Financial Integrity Platform

Financial Integrity means eliminating the exposures your business is facing. Our platform makes it possible.

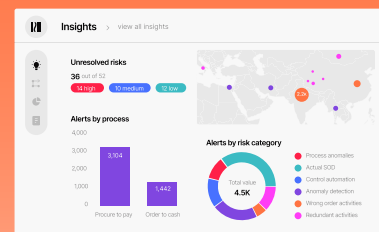

Autonomous Process Discovery

Without needing any input, Datricks automatically and continuously analyzes your financial processes in order to understand your business context.

Integrity Exposure Detection

Problems and anomalies are identified across all business transactions and analyzed by our AI in the context of their financial processes in real time.

Integrity Intelligence

Finance leaders get a comprehensive control tower to understand the overall financial health of their organizations, see the issues that matter, and achieve peak performance.

7 days to see results 0 input required

Setup is effortless. Just point Datricks at your ERP and other Business Management Solutions — no need to explain how your business runs. You'll see results within a week.

Transformative impact across your business

Build more trust

Foster confidence in your financial operations by ensuring you never miss anything that matters and avoiding unfortunate surprises.

Focus auditor efforts

Dedicate your auditors' time to the most problematic issues, instead of randomly sampling data — resulting in imprecise conclusions.

Recover lost funds

Recover lost assets and prevent further losses. Stop duplicate payments, pay terms manipulation, and maverick spending.

Achieve peak performance

Boost your bottom line, improve working capital and cash flow, and scale your financial processes with confidence.

"Datricks mapped controls that were never conducted in the past, enabling us to find meaningful issues with substantial impact on the business."

Rami Bareket
Director, Head of Global IT Audit

"Datricks helped us by showing us process variances among regions, allowing us to prioritize efficiency opportunities and controls."

Brian Wueste
Head of Internal Audit

"We have already witnessed that this solution will help us identify and mitigate risks, improve our processes, and ultimately achieve our business goals efficiently."

Heiko Laessig
EVP Risk, Internal Control & Process Management
